PROFILE

Third-year B.Sc. Data Engineering student specializing in Data Science.

A fast learner and hands-on problem solver, adept at using AI tools to drive real-world impact - particularly in sports analytics. Actively seeking a student or full-time position in AI or Data Engineering.

EDUCATION

Ben-Gurion University of the Negev

B.Sc. in Data Engineering

2022 – Present

Beer Sheva, Israel

- Completed Year 3 over 4 academic years due to extended reserve service during wartime.

SKILLS

Programming Languages : Python, Java, SQL

Frameworks & Libraries : Pandas, NumPy, Scikit-Learn, PyTorch, XGBoost, Streamlit

AI Tools & Development : Claude Code, Cursor IDE, Prompt Engineering, Agentic Workflows

Tools & Technologies : Docker, Git, PostgreSQL, MongoDB

Languages : Hebrew (Native), English (Proficient)

PROJECTS

Bricklink Price Analyzer | Python, Pandas, Scikit-Learn

- Created a specialized pricing engine for the Bricklink LEGO marketplace to evaluate market volatility and pricing trends.

Deni Avdija All-Star Dashboard | Python, Streamlit, Pandas

- Engineered a user-friendly interface using Streamlit to present advanced player efficiency metrics and performance trends, using interactive visualization.

Barcelona Elite Analyzer | Python, Pandas, XGBoost, Scikit-Learn

- Implemented machine learning models (XGBoost) to identify performance patterns and provide data-driven insights into team dynamics.

EXPERIENCE

IDF Military Reserve Duty

2023 – 2025

Engineering Site Manager – Tunneling Projects

Israel

- Conducted applied research and experiments in subterranean environments.
- Maintained high operational and analytical capacity during wartime service under pressure.

Ministry of Health

2020 – 2021

Epidemiological Investigator

Israel

- Completed official epidemiology training and infectious disease control certification.
- Conducted case investigations for COVID-19 patients to analyze and mitigate infection.

IDF Mandatory Service

Dec. 2017 – Aug. 2020

Underground Research Unit

Israel

- Served in operational and research roles within specialized underground environments.
